## Beveridge May Name Coolidge

Former Senator From Indiana  
Tendered Honor Of Nominating  
President At Cleveland Con-  
vention—Conditions of Acceptance.  
By George E. Durno.

By Telegram to The Freeman.  
Washington, May 27.—Albert J.  
Beveridge, former United States  
senator from Indiana, has been  
tendered the honor of placing Pres-  
ident Coolidge in nomination at the  
Cleveland convention, it was learned  
here today.

Beveridge's acceptance will be  
conditioned on the effectiveness of  
the trust established between him and  
his political enemies. Postmaster  
General New, whom he defeated for  
the Republican senatorial nomina-  
tion in 1922, and Senator James E.  
Watson of Indiana. All indications  
point to Beveridge's acceptance if  
this condition can be met.

Senator Borah let be known that  
he would not even attend the Cleve-  
land convention unless congress  
passed farm aid legislation before  
adjournment. At the same time,  
he, along with other administration  
leaders, recommended Ex-Senator  
Beveridge. As there is little prob-  
ability that any agricultural relief can  
be pushed through by June 7, the  
administration turned to Beveridge.  
Beveridge was invited to Wash-  
ington, and for two days he re-  
mained at the White House as a  
special house guest. The president  
and his friends subjected him to the  
closest scrutiny.

Beveridge is counted as a pro-  
gressive. In 1912 he enlisted under  
the standard of Theodore Roosevelt.  
His personal appearance is in his  
favor and he has an established  
reputation as an orator.

### PORT EWEN.

Port Ewen, May 27.—Mrs. Lizzie  
Wells of Kingston, who has been the  
guest of her sister, Mrs. Mead Davis,  
on Main street, has returned home.  
Mrs. Jane Van Demark and Mr. and  
Mrs. Elmer Van Demark and children,  
Leslie, Gladys and Melford of Krippl-  
ush, were Sunday visitors at the  
home of Mr. and Mrs. Chauncey Freer  
on Stout avenue.

Mr. and Mrs. McCartney, Mrs. M.  
J. Carpenter and Elmer Ross of Al-  
bany, spent Sunday with Dr. George  
K. Ross on Hamilton street.

Decorations day exercises will be  
held in Port Ewen Friday morning.  
The school children will bring flow-  
ers and assemble at the school house  
at 8:30 o'clock. The following or-  
ganizations will take part in the pa-  
rade: Members of the G. A. R., Es-  
sex Council, No. 42, Sons and Daugh-  
ters of Liberty, Hope Temple, No. 80,  
Pythian Sisters, Hope Lodge, No. 65,  
Knights of Pythias, Port Ewen  
Lodge, No. 656, I. O. O. F., the board  
of trustees and pupils of District No.  
1 and 13. The parade will be led by  
the Kingston Drum Corps. Leaving  
the schoolhouse they will march to  
the cemetery, where the graves of the  
veterans will be decorated. Return-  
ing they will proceed to Pythian Hall,  
where an appropriate program, con-  
sisting of patriotic songs, recitations,  
by the pupils and an address by the  
Rev. C. H. Polhemus will be given.

Division No. 2 of the Ladies' Aid  
Society of the Methodist Church will  
serve a cafeteria supper in the chapel  
Wednesday, June 28. Further par-  
ticulars will be announced later.

Port Ewen Lodge, No. 656, I. O. O.  
F., will meet this evening at 8 o'clock  
in its rooms on Broadway.

Mr. and Mrs. James Wilson and  
Earl A. Schwark, Miss Gladys H.  
Sexton of Broadway, motored to Valley  
Stream and Richmond Hill, L. I., to  
visit Mrs. Wilson's sister, Mrs. V.  
Lausbach, and returned to their  
homes Sunday evening.

All members of Hope Temple, No.  
10, Pythian Sisters, are requested to  
participate in the Decoration Day ex-  
ercises Friday.

John Lampman, the Broadway  
dealer, is ill of grip at his home on  
Stam street.

Dancing, Kingston Point Casino,  
Decorations Day, afternoon and even-  
ing.—Advertisement.

## THE LAMBERT BILL.

Notwithstanding all the Democratic party claims relative to welfare legislation and the advancement of measures to help the common people, every once in a while something will come to the surface to prove that Democrats are no more ambitious than anybody else to aid the rank and file. Nevertheless, anything they do that provides a talking point they advertise for all it is worth. About all one hears from Democratic orators is what the Democratic party intends to do for the people. Little time is spent orating about what it has done, because it would be difficult to point to anything very definite.

It may be recalled that last winter Assemblyman Lambert of Niagara County introduced a bill carrying an appropriation of \$1,500,000 to be distributed among the families of deceased veterans, the distribution to be based on the length of service and the amount to be apportioned at \$10 per month. The bill passed a Republican Assembly and went over to the Democratic Senate, where it died in the finance committee. Had it passed the Senate the Democrats, according to rules, would have claimed all credit for its advancement.

This is but one of many instances that could be mentioned to show that while the Democrats are prompt to take upon themselves all the glory of looking out for the people, they smothered some legislation that would be welcomed by relatives of soldiers who gave their lives in the cause of humanity. Had this bill passed, it is dollars to doughnuts that the Democrats would have used it for political capital.

During the past sessions of the Legislature, 1923 and 1924, the Democrats charged the Republicans with blocking anything and everything that came from the Democrats. But they did not mention any of the safe and sane proposals that emanated from Republicans that were blocked by the Democrats. They were cautious in this respect, but the fate of the Lambert bill is just one bit of evidence which tells its own story.

## THE CARELESS MAJORITY.

Failure of an appreciable number of taxpayers of Hudson to vote at a recent special election, at which public improvements were to be determined, prompted the Hudson Daily Star to express an opinion relative to the absence of interest on the part of those who should respond and do their share toward helping the municipality. What the Star said would apply, however, to residents of many other localities, for it seems almost impossible to get the voters awake to their responsibilities. Out of several thousand names on the tax rolls only about 100 paid any attention to the election, and of course a minority carried the day.

As it happened, the vote gave approval to school construction and paving improvements, both essential in the progress of any city, but with such a small number voting the proposals could have been easily blocked against the wishes of the majority not voting. The Star consistently dwelt upon the failure of the people to perform their civic duty, also the practice of people to criticize public officials when they themselves decline to do one single thing to prove their concern in public affairs. There is no doubt that the Star is substantially correct in its attitude, because in practically every town those active in civic matters are so few that it would almost seem as if the people did not care what took place, one way or the other.

The bonus bill, now a law through its passage over the president's veto, will cost the country between \$2,500,000 and \$4,000,000 during the next twenty years. This money will come out of the pockets of the taxpayers, but it seems to be doubted whether the bulk of it will ever find its way into the pockets of the beneficiaries. "Only the most optimistic," says one prominent newspaper, "think that it will go to the men who served in the war." Those entitled to \$50 are booked to get that sum in cash. The others will get a 20-year endowment insurance policy of such value as the sum to which they are entitled would purchase. They may borrow money on this policy at the end of two years, and it is predicted that many will

make their policies over to the lenders. There is bound to be disappointment followed by renewed demands which calculating politicians will seek to satisfy. Actual pensions in lieu of "adjusted compensation" will be the ultimate demand—and, owing to the "politics" involved, the outlook from the point of view of the American taxpayer can not be called encouraging.

## THE HUMAN BAROMETER.

It must be interesting to some of our older folks when they read about what is now thought to be the cause of rheumatism and stiff joints. Rheumatism was taken as a matter of course in their time. In fact the old lady's idea that rheumatism was sent from heaven, so that she could forecast the weather, was not considered entirely as a joke.

And so when we read in the papers lately that another place in the body is now considered a source from whence rheumatism may come, we are not surprised.

A physician in X-ray work claims to have perfected a method whereby he can see right into some small cells of bone on the floor of the skull, just above the nose, and behind the eye sockets.

It was found that even after clearing up the matter of teeth, tonsils, and the little sinuses or cavities adjoining the nose, and likewise the intestine, that rheumatism still persisted.

These people would have a sort of chronic catarrh for which all forms of treatment seemed of no avail.

By means of this new method this physician claims that the actual infected cells can be seen.

This enables a surgeon to enter in and clean out the infection.

Some persistent catarrhal conditions which are so annoying by their very persistence have often baffled our cleverest specialists.

After traversing every area about the nose and the different cavities or sinuses adjoining it, they have failed to relieve the condition.

I'm not in a position to verify the claims of this X-ray specialist, nor of the surgeon who has been following up the findings and operating thereby, because it is reported from a distant city. Time will tell.

My object in speaking about it is to show that one should not calmly sit down and accept rheumatism as something that cannot be helped. That one must just sit or lie down and bear it.

Rheumatism, as it is called, is simply a condition due to some infection. If the cause is looked for persistently, it can usually be found.

If these cells spoken of above are found to be really another source from whence rheumatism may come, then one more step has been gained on this foe of mankind.

## RAILROAD CRITICISED FOR NOT PROVIDING CARS.

Kingston, N. Y., May 26th, 1924.

To the Editor of The Freeman:

Sir: As I understand it, one of the reasons which the Kingston Consolidated Railroad offers for asking for increased fare is that they do not have sufficient patronage at the present fare to make any profits.

On week-day evenings crowds come out of all our theaters and frequently from the armory, but if they miss a trolley by so much as two minutes they must wait 20 minutes for another trolley, or walk.

Last week there were two immense audiences at the Kingston High School; that attending the Mendelssohn Club concert Wednesday evening, numbering fully 1,200 people; and that attending the senior play on Friday evening numbering 1,000 people. It rained on the night of the Mendelssohn Club concert, too, but there was just one trolley car going uptown at the close of the concert. Nor did any considerable number of those attending the concert go in autos or taxis, for many people dislike to take an auto to the high school at night as the traffic conditions are usually confused. There were streams of people walking both up and downtown.

Last Friday evening there was not a car to be had, and presumably cars had gone either way just before the play was over as those who could not walk had to wait 20 minutes on street corners. Probably the trolley company would say they were not notified when to send out extra cars, but any other business would go out after customers.

Yours very truly,

A SPOKESMAN FOR NIGHT WALKERS.

## TWENTY AND TEN YEARS AGO.

May 27, 1914.—Y. M. C. A. directors called W. A. Horn as secretary. Education board engaged W. B. Kelsey as principal of School No. 4.

May 27, 1914.—Tovalel Amida killed in brick machine at Dinan's brickyard.

Death of Harry J. Hubbard, a well known commercial traveler. A. J. Bowers, a freeman, overcame by smoke fighting fire in cellar under shoe store of Jacob Harris on lower Broadway.

Accord, May 26.—All are invited to a Home Bureau picnic at Lake Mohawk on June 5th. Carriage will leave the M. E. Church at 9:00 a. m. Standard time. Seats must be engaged through Mrs. H. DeVoe at once. The cost of transportation will not exceed \$1.50. Also communicate with Mrs. Minnie Schoonmaker in regard to your contribution to the community luncheon.

Dance Tuesday evening at Peter Boice's on the Plank Road, May 27. Advertisement.

## A WELCOME GIFT

to any woman who keeps house is a cut glass water or lemonade pitcher set richly cut, such as you will see in our store.

At \$15.00 we are showing a set that is remarkable value. Full size, finely cut on good quality lead glass, it is a set you would be proud to own.

## Dobbin Is Still Efficient Motor

Horse Power Not All Replaced by Motors on New York Farms—Care in Spring Advised.

The farmer who uses the old reliable Dobbin make of farm motor has no carburetor trouble and little depreciation over a long period of time. The department of animal husbandry at the New York State College of Agriculture points out that, popular as motors and trucks have become, they have by no means replaced all the horse power on the farms of New York, nor are they likely to do so.

One warning given by the college is against starting the horses on too heavy work in the spring after a winter of more or less idleness. Good farmers find that a gradual adjustment of the horse to working conditions will fit its muscles and shoulders to hard work and will eliminate much early season trouble. It is better to break in colts in the fall where there is more time, and therefore the trainer is likely to have more patience.

Too much attention cannot be given to the horse's collar and the care of its shoulders. Every horse should have its own collar just as much as every human being should have its own tooth brush. Both the collar and the shoulders should be sponged off at night after the work is done.

There are three other good points for farmers to remember in considering horses and horse breeding. The New York authorities quote them from Dr. H. E. Bomis, of the Iowa State College:

"Start with the best blood and conformation possible.

"Keep horses straight in feet and legs and free from disease.

"Provide plenty of water and good food."

## HIGH FALLS

High Falls, May 26.—The Girl Scouts of this place attended the memorial service in the Reformed Church on Sunday morning.

Mr. and Mrs. Christopher Ten Hagen and Mr. and Mrs. Eli Wager were recent visitors of Mr. and Mrs. Benjamin Ten Hagen at Walkkill.

Mr. and Mrs. LeRoy Krom and son, Raymond, have returned home after spending a week with relatives at Freeport, L. I., and Brooklyn, during their stay in the city. They were invited by a friend to visit the steamer Leviathan which added much pleasure to their trip.

Mr. and Mrs. Harry Krom of Rifton and Roy Krom and friend of Beacon called on Mrs. E. D. Kortright on Sunday afternoon.

Mr. and Mrs. Eli Wager of Lakehurst, have returned to their home after spending the past week with Mrs. Wager's parents, Mr. and Mrs. C. Ten Hagen.

Mr. and Mrs. Bert Williams of Poughkeepsie and Mrs. Jane Elmdorf visited Kyskerie Cemetery on Sunday and also called on friends in this place.

Mr. and Mrs. Oscar Edwards and family of Kingston visited High Falls Cemetery on Sunday afternoon.

**Newer Form of Iron is Red Blood Food**

If your blood is thin, pale and watery, keeping you weak, nervous and run-down, you need rich, red blood with plenty of iron in it to give you strength, energy and endurance. It would surely astonish you to know how in two short weeks a little more iron in your blood would help remove the elasticity, the strength and energy of earlier days. It is the iron in your blood that enables you to get the good out of your food. Without iron, nothing you eat does you any good. Your food simply passes through you and your body is literally starving on three big meals a day.

This newer form of iron known as Nuxated Iron is like the iron in fresh vegetables and like the iron in your blood in concentrated form. It may be had from all druggists with a guarantee of entirely satisfactory results or a money back.

**NUXATED IRON BUILDS RICH, RED BLOOD**

## Ulster County Real Estate

Recent Transfers of Ulster County Real Estate Shown by Deeds Filed With County Clerk.

The following deeds have been filed in the Ulster county clerk's office:

John W. Eckert as referee in the mortgage foreclosure matter of A. T. Skerry Co., plaintiff against Milton Woolen Mills, Inc., David J. Brown, Walter MacMichael and Star Woolen Mills, defendant, to Winthrop S. Fanning, parcels of land and buildings in the town of Marlborough. Consideration \$2,000.

Henry M. Russell and ano. to the county of Ulster, two parcels of land on the Kingston-Elleville highway, in the town of Wawarsing. Consideration \$1,000.

Robert R. Walters of Kingston to E. H. Moore of Piquanick, N. J., a tract of land in the town of Woodstock. Consideration \$1.

Benjamin Lewin and wife to Edward S. Tompkins of Pine Hill, a property in the town of Shandaken. Consideration \$1.

Mabel L. Boote to Clarence Wolven, a release of interest in a property in the town of Woodstock. Consideration \$1.

Clarence Wolven and ano. to William Hoyt, a property in Woodstock. Consideration \$1.

Ethel Shires of Bay Ridge, N. J., to Mary H. Elmendorf of New Paltz, a parcel of land in the town of New Paltz. Consideration \$1.

Stratton D. Todd of Seager to Walden Demund of Arlington, N. J., a parcel of land in the town of Hardenbergh. Consideration \$1.

Harry C. Fuller and wife to Arthur S. Reynolds, a parcel of land on the southwest side of West Emerson street. Consideration \$1.

### AGRICULTURE

Uncle Ab says that hard struggles make firm characters.

Every farmer should be a member of some farmers organization.

Be sure the dog has a chance to get plenty of cool clean water, day or night, during the summer.

Farmers now are just at the beginning of the time when electricity is to become the servant of agriculture.

Annuals may well serve as experimental plants to help determine where low shrubbery should be set permanently.

Do you know how to care for the asparagus bed after the season is over? Bulletin E 81 from the state college at Ithaca tells how.

Better cultivation means better crops. And it's still a fact that the best crop—not necessarily the largest—gets the best return.

### Our Growing Population.

The following births have been reported to the board of health.

Mr. and Mrs. Charles Altamari, 80 Yeomans street a daughter Mary.

Mr. and Mrs. Andrew Demskie, 160 Third avenue, a son Kenneth.

Mr. and Mrs. Martin Netter, 46 Staples street, a daughter Anna.

Mr. and Mrs. Emil May, 63 Second avenue, a daughter Anna Elizabeth.

Mr. and Mrs. Thomas Long, 58 Meadow street, a daughter Edith Marie.

Mr. and Mrs. Charles Hogan, Phoenixia, a son Paul at Benedictine Hospital.

Mr. and Mrs. Willis Roe, 20 Crane street, a daughter Cornelia at Benedictine Hospital.

Mr. and Mrs. William A. Colnot, Ellenville, a son William Robert at Benedictine Hospital.

### Avoid Ruts

We think in grooves, say the psychologists. These grooves may be channels to success or ruts to failure. Keep out of the ruts.

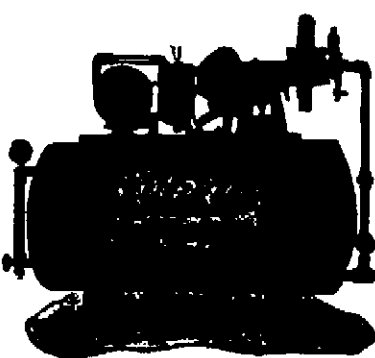

### Card of Thanks.

We wish to thank all those friends and neighbors for their many acts of kindness during the death of our son and brother, George Johnson, also we wish to thank all those who contributed flowers, including G. W. Van Slyke & Horton, Cornell Steamboat Company, tug Adams and the Osceola.

(Signed.) PARENTS, BROTHERS AND SISTERS.

Forbes Frank Gardner of Oneonta, and Harry R. LeFevre of Kingston, have returned from a week's fishing trip at Chain Lakes in the Adirondacks. The party caught 50 trout. Van Voorhis captured the prize as the "still fisherman."

Esopus Postmaster Examination. The United States Civil Service Commission has announced an examination to be held at Kingston on June 21 as a result of which it is expected to make certification to fill a contemplated vacancy in the position of four class postmaster at Esopus.

Spindler Buys Hercules. Robert Spindler of Rosendale has recently equipped his house with a up to date water system consisting of a Kingstonian power pump and Hercules gasoline engine which were purchased of the Canfield Supply Company.

Returned From Fishing Trip. Dr. Guy P. Atell, Fred S. Van Voorhis and Albert Carrington of Saugerties returned from a week's fishing trip at Chain Lakes in the Adirondacks.

Effective Ant Trap. By inducing ants to enter, and making it impossible for them to leave, an ant trap recently invented is proving effective.

## Finally found health in Kellogg's Bran after suffering long with constipation

Mr. Patch writes that Kellogg's Bran "solved his problem." It has solved the problem of constipation—mild and chronic—for thousands of others. It has brought relief when all else has failed because Kellogg's Bran is ALL bran. Nothing but ALL bran can be 100 per cent effective. Read Mr. Patch's letter:

Dear Sirs:  
I have been a constant sufferer from constipation and have wondered what was the cause of it. I have tried about all the cereals I could think of, and finally tried Kellogg's Bran. This solved my problem. I feel 100 per cent better and I owe it to your Bran. . . . Thanking you very kindly for this great cereal, I am  
Very respectfully,  
Chester C. Patch,  
761 Main St., Greenwood, Mass.  
For the permanent relief of constipation, eat Kellogg's Bran regularly—two tablespoons daily—in chronic cases, with every meal. It sweeps, cleans and purifies the intestines. It rids them of the dangerous poisons that lead to other diseases. It is guaranteed to bring results, or your grocer will return your money.

Kellogg's Bran, cooked and krumbled, is delicious with milk or cream. You will like its nut-like flavor—so different from ordinary, tasteless bran. Sprinkle it over the cereals. Cook it with hot cereals. Eat it in Kellogg's Bran muffins, griddle cakes and many other wonderful recipes given on the package.

Kellogg's Bran, cooked and krumbled, is made in Battle Creek and is served by the leading hotels and clubs everywhere. It is sold by all grocers.

### OLIVE BRIDGE.

Olive Bridge, May 26.—Dr. Morgan, who has been a pastor for thirty years and a great traveler, will give a lecture in the Olive Bridge Church on Thursday evening, May 29, at 8 o'clock, standard time.

Grover Christiana and family spent Sunday in Stone Ridge.  
Mrs. William Fiero is ill at this writing.  
Lester Davis is making improvements on his house.  
Mrs. Robbins called at the home of Mrs. C. A. Davis last week.  
Watch for the date of the play, "The Peppercorn and Company," to be

given by the Willing Workers' class in the near future.  
Ezra Palen called at the home of Egbert Smith one evening last week.  
People are glad to hear that Mrs. Charles Eckert is improving nicely and is expected home from the hospital in about two weeks.  
Miss Gladys Silkworth was a week end guest of Aletha Davis.  
Mrs. Arthur Winne of Newark, N. J., is visiting relatives in this place.

### Puts Joy in Life

The discovery of things which heretofore have been hidden to you, is what makes life worth living.

## Average Factory Earnings Less

By Telegraph to The Freeman.  
Albany, May 27.—\$27.70 was the average weekly pay of New York state factory workers in April. Industrial Commissioner Bernard L. Shientag of the State Labor Department, who made this statement, remarked that this was a decline of 46 cents from the general average reported in March. "This reduction in actual weekly earnings," he said, "stands even after a decrease of over 3 per cent in factory employment which meant that many part time workers and a relatively large number of the less skilled employees were off the payrolls entirely."

Payrolls in the manufacturing industries of this state were smaller in April than in any month since February, 1923, although April is usually a peak month for many industries. By cutting down both the number of workers and their working time manufacturers have lowered their payrolls 5 per cent as compared with those of March or those of April a year ago. A consistent decline is noticeable in payrolls reported by the apparel and textile trades; men's and women's clothing, knit goods, silks, woolens and worsteds, carpets and leather. Declines of more than 10 per cent also occurred in automobiles, hardware, glass, cutlery and tools and in stoves. The principal payroll increases came in brick yards and lumber mills.

April reports from the United States Bureau of Labor Statistics indicate a drop of about two per cent in retail prices. "This gradual drop in prices," said Commissioner Shientag, "will be of some help to workers whose earnings are now reduced but it will appear rather small to those who are altogether unemployed because of the present decline in industry."

A year ago at this time this office was able to report that about 10 per cent of the factory workers in the state had received increases in the basic wage rate in April. Increases granted this year affected less than one per cent of the factory workers and almost all of those were in the building supply industries.

Returns from New York city indicate that the average earnings of women fell off more rapidly than those of men. This results from the seasonal trades in which most of the women here are engaged. The average for women in New York city in April was \$19.76 as compared with \$32.84 for men in the same district.

The average was \$15.09 for women in the up-state industries. Men up-state averaged \$30.64 in April. It will be noticed that the difference between earnings up-state and in New York city is much greater in the case of women than it is of men.

### FINISH OF MOTOR CAR IS SUBJECT TO MOST ABUSE

It is natural that the greatest part of the attention of automobile manufacturers in the past should have been directed towards improvements in and perfection of mechanical units. The varnish finish, while infinitely better today than a few years back, is probably the first part of a car to need replacement. The strain to which the delicate finish is subject is responsible for much of the quick deterioration. Road dirt, dust, tar, motor oil thrown up on the body by the wheels if allowed to remain on the finish quickly attack the varnish surface of car, and the result is flaking of varnish, checking and the inevitable destruction of the entire finish.

No substitute has been found for frequent washings to maintain the finish of a motor car. The rules for correct car washing are simple, and there is no reason why every car owner cannot wash his own car and prevent the deterioration of its finish. The tools required are a pail; two sponges, one for the body and one for the running gear; a piece of chamois and a can of Mobo auto soap—a pure neutral soap containing no free alkali. This soap is used almost exclusively by professional car washers because it has been proved that its use makes car washing easy and increases the longevity of the varnish.

Here's the proper way to wash a car:  
First, go over car with a hose—do not direct the full force of water against the body. Then, with sponge plentifully sopped in a solution of Mobo auto soap and water go over the car washing it thoroughly. The soap will be found to loosen dirt, grease and grime very quickly. Then rinse the car thoroughly with clean water and finally dry down varnish with a chamois.

The sponge used for the body should be free from coral particles, which would scratch the finish. Avoid washing the car in the sun if possible. Wash the car as soon as possible after it has become muddy.

The habit of giving the car a washing on Saturday afternoon is becoming quite general among motorists, and it is now believed that this is one of the best ways in which to keep the finish of an automobile free from signs of age.

### SHADY.

Shady, May 26.—Mr. and Mrs. George A. Reynolds of Woodstock called at his parents, Mr. and Mrs. C. S. Reynolds.

The Epworth League conference which was held at the church Wednesday was very well attended. A large crowd gathered in the evening and listened to an appreciated discourse given by the Rev. Bratz.  
Mrs. Melissa Lupo, who is ill, is slightly improved at this writing.  
Mr. and Mrs. Ralph Vosburgh and son of Mt. Vernon spent the week end with his mother, Mrs. E. Vosburgh.

## Lime Makes Clover and Aids Fertility

This Legume With Clover Is Best Source of Protein.

Lime makes clover and clover makes for soil fertility.  
This is what A. F. Gustafson of the New York state college of agriculture at Ithaca says in pointing out that clover is a most important crop in rotations. Without clover, he says, it is difficult and costly to keep the soil well supplied with nitrogen.

"Clover and alfalfa," he adds, "are the cheapest and probably the best source of protein for dairy cows. These legume says, cut early and cured properly, supply absolutely essential vitamins for cows. Legumes also provide lime and phosphorus so necessary for milk production and for the normal development of a healthy calf. Abortion is less likely to be prevalent among cows fed plenty of alfalfa and good clover hay."

"Both of these crops need plenty of lime in the soil for fair growth. Much of the southern and eastern parts of the state need from one to one and a half, and, on exceptionally sour soils, two tons of limestone, or its equivalent, for red clover. Alfalfa and sweet clover require even more."

"Limestone may be applied on fall-plowed land as soon as the fields are dry enough to get on them; it may be worked in while making the seedbed preparatory to drilling the spring grain and clover seed. Burned or hydrated lime may be applied after the soil is dry enough to stir, and should be mixed with the soil very soon after spreading. Any form of lime should be mixed very thoroughly with the soil for best results with either clover or alfalfa."

"Good acclimated, domestic northern-grown clover seed is also necessary to obtain a good red clover hay crop."

## Keeping Broody Hens on Feed Is Now Advocated

Thousands of dollars are lost each year because broody hens are allowed to remain on the nests instead of being made to produce. Some poultry owners resort to starving or ducking their broody hens or withholding water from them, but such treatment is injurious to the hens and often throws them into an early molt. Better results will be gained if the "broodies" are given plenty to drink, and if a mash is kept before them all of the time. Besides, they should have a light feeding of scratch feed twice a day.

A broody coop which will help in breaking the birds of their desire to nest is also recommended. It should be built of wire or slats, with the bottom of the same material as the sides and top, and should be placed in the hen house, preferably on the roosts. About twice a week the broody coop can be opened and all the birds allowed to escape. Any that still seek the nest should be put back in the broody coop.

## Prepare for Oats With Disk on Corn Stubble

That it is profitable to plow or disk corn stubble ground for oats is proven by tests made at the Ohio experiment station.

The average yield of the disked land for the 15 years of the experiment was 52.83 bushels per acre and that of the plowed land 52.92 bushels, or almost the same; while the stubble land which was disk-drilled as early as the land could be worked, but without any previous preparation of seed-bed gave only 47.43 bushels per acre.

In two very exceptional seasons the no-preparation seed beds gave the largest yield, although in especially unfavorable seasons the yields of the unplowed land were less than half that on either the plowed or the disked land.

The plowed land was much freer from white-top weeds in seasons when that winter annual was particularly bad. Unless the land is in good condition for drilling and free from weeds plowing or thorough disking is the safest practice.

## Farm Hints

Head lettuce requires about 80 days from seeding to maturity.

The best practice in planting sweet clover is to seed it with barley as a nurse crop early in the spring.

The prices for early lettuce are sometimes better than for the last crop, though often the reverse is true.

A grain drill set to show about two pecks of wheat will sow about the right amount of sudan grass seed.

The statement is often made that lettuce maturing late in the season, when the weather is cool, is more likely to be a success than the earlier crop.

If, instead of cutting a good, vigorous stand of alfalfa on June 1, it is allowed to grow three weeks longer, the yield will often be doubled—one reason why two crops may yield more than three.

It is usually a matter of efficiency and economy to use mechanical instead of human energy wherever possible to do work. Human energy had better be used in brain work which a machine lacks.

### WOMAN FORGER CONFESSES SHE LIVED DUAL LIFE

*Philadelphian Was Wife of Carpenter Days and Bride of Banker at Night.*

Philadelphia, Pa.—The wife of a carpenter in the daytime, and the bride of a wealthy banker at night, Mrs. Anna Beswick, fifty, is awaiting a hearing on charges of forgery, which, in an alleged confession given out by the police, she said she was forced to commit to obtain money for blackmailers, who had threatened to expose her dual life.

Had 18 Children.

Apparently neither Samuel E. Beswick, by whom she said she had 18 children, nor William C. Martin, vice president of a suburban bank, who she declared she had married last February, and from whom she said she had taken at least \$50,000 to pay for the blackmailers' silence, knew of her double life. Martin married her, she said, in the belief that she had been divorced.

Mrs. Beswick was arrested outside the courtroom of Judge J. Willis Mar-

Paid Blackmailers.

tin, whose name she is alleged to have forged to letters through which she is charged with having obtained \$5,000 from William Shuman and Ralph Hawthorn, who had the warrant issued for her arrest.

Alleged Blackmailers Held.

Mrs. Beswick named Herbert Russe, John McCoy and Erwin Hamilton as her alleged blackmailers. They were arrested on charges of extortion, conspiracy and blackmail. Mrs. Beswick said they had learned of her double life through driving her in a taxicab from the modest home of her children and their father in West Philadelphia to the more pretentious residence of Martin in Fox Chase, a northern suburb. Mrs. Beswick told the police she had paid these men at least \$50,000.

The police learned from the woman's first husband that she had served six months in prison in 1917 for check forgeries.

Martin appeared stunned when he was summoned to the district attorney's office. He told the authorities that Mrs. Beswick had gotten "a lot" of money from him, but that he could not state the exact amount.

### "Wild Man of Gayville" Only a Homesick Youth

Yankton, S. D.—Reports of a "wild man" in the vicinity of Gayville took Sheriff James Foley down there in a hurry. The man was said to be wearing a knotted handkerchief about his head and to be well armed with gun and knife. The sheriff found his man and he proved to be a fifteen-year-old boy, who said he was out hunting. His folks had sent him out from Chicago to work and he was lonesome and homesick, he said, and wanted to go back.

### Autoist Has Miraculous Escape While on Cliff

Fairfax, Wash.—C. G. Sheldon of Seattle had a miraculous escape recently when his car's steering gear broke at the top of a 250-foot cliff in the White river canyon. The automobile turned over and hung, teetering on the brink of the drop, near the high trestle across the canyon. Sheldon crawled out, with his dog, practically unhurt. A minute afterward the auto overbalanced and fell into the abyss.

### Opens Cell With Wood Key

Marble Hill, Mo.—In jail for robbing the bank where he was employed as cashier, R. E. Burgess, of Marble Hill, whittled his way to freedom. He made a wooden key, unlocked his cell door, and walked away when the jailer was absent.

### Acquitted Man Stays in Jail

Frickshoro, N. J.—Rather than return to his home, Thompson Dickson, aged farmer of Frickshoro, acquitted on a charge of having murdered his fifteen-year-old daughter, continues to make his home at the county jail.

### Her Husband

A wife (in an English court, talking of her husband)—"After all, a husband is only an overgrown baby in the hands of a sensible woman."

### NEW!

SUMMER

FROCKS

Arrive on

the Scene

June is but a few days off, when one may officially don the summer frock, and we present the loveliest of many seasons in a comprehensive collection. Summer frocks in pastel shades, with touches of hand work. Smartly tailored frocks in stripes, tub silks or flannels. Afternoon frocks of lace or pique, that look as lovely as a summer cloud. Lovely frocks, all of them very simple, as is the fashion, and very, very smart!

Race Officials Help Cooper Kill  
Jinx. Give Him Old Number "8"

Earl Cooper, who will pilot a Studebaker Special in the 500-mile race at Indianapolis on May 30th, was the first driver to file his entry blank. As a result his car was given No. "1".

But his Robin Egg Blue racer now carries No. "8" emblazoned on

it in gold. Cooper is superstitious. He won eight races in a row in 1913. He won the title of Speed King in 1913 and 1915. Each time his car bore Number "8". So the Speedway officials, knowing Cooper's desire for Number "8", granted him the privilege of using it. So Cooper is happy. And on the day of the races he will have eight new pennies in eight pockets of his driver's suit. That's how superstitious the Studebaker driver is.

### THINGS UNUSUAL

By T. T. MAXEY

### THE ASHOKAN RESERVOIR

The Ashokan reservoir is an artificial lake created as a water-storage reservoir for the city of New York, situated in the Catskill mountains more than 100 miles away.

The Esopus watershed, carrying the waters of the streams which flow from the high forest lands in the Catskills, emerged from the mountains through a deep gorge and drained into the Hudson river. The construction of a dam 4,650 feet long, with a maximum height of 252 feet, across this gorge, stopped the flow of water and created a reservoir 12 miles long, from one to three miles wide, with a maximum depth of 160 feet and a capacity of 150,000,000 gallons of water.

The lower division of the reservoir is 587 feet above the tide in New York harbor, the water flows to and is delivered within the city by gravity. Although the water of the Esopus drainage is of unusual softness and the sparse settlement of the country makes for purity, the water is drawn from the reservoir through 1,399 noz-

zles of water.

In the construction of this gigantic project, 15,222 acres of land, on which dwelt a population of 2,000 persons who had to find new homes, were acquired; 2,800 houses from seven cemeteries were re-interred; 11 miles of railroad were re-located; 61 miles of highways were discontinued and 40 miles of new highways were constructed; 2,500,000 wagon loads of earth and rock were moved; embankments containing 7,300,000 wagon loads of material were built and 600,000 cubic yards (or wagon loads) of masonry work in which 1,200,000 barrels of cement were used, were constructed. Three thousand men, 30 miles of railroad, 33 locomotives, 550 cars, derricks, steam rollers, steam shovels, concrete mixing outfits, and miscellaneous equipment without end were employed.

As the lower division of the reservoir is 587 feet above the tide in New York harbor, the water flows to and is delivered within the city by gravity. Although the water of the Esopus drainage is of unusual softness and the sparse settlement of the country makes for purity, the water is drawn from the reservoir through 1,399 noz-

zles which break it into a spray and permit the escape of any odors or gases which it may contain.

The water flows for the most part, through an aqueduct 17½ feet wide and 17 feet high, with an average drop of 1.10 feet per mile. Cement-lined tunnels carry it through unavoidable hills and under valleys. It passes under the Hudson river through a tunnel driven in granite rock 114 feet below sea level, and reaches the city mains in a tunnel bored through solid rock, lying from 200 to 750 feet below the street level. The maximum capacity of this aqueduct is 20,533,333 gallons per hour.

### Polite Distinctions

"A gentlemen's agreement," remarked Cactus Joe, "is what broke up our little poker game. Three or four ace-boards got together and formed a society, passed resolutions that anybody outside the sacred circle was no gentleman and therefore didn't deserve a chance to win."—Washington Star.

**Enemy of Grasshopper**  
An agricultural technologist of the bureau of plant industry has found that a certain parasite, called "mermithid," is one of the deadliest enemies of the grasshopper. Artificially infested grasshoppers containing six or eight mermithids die in about eight days. The parasites multiply with amazing rapidity.

**Clock Made of Glass**  
A Bohemian glass polisher at Prague has constructed a clock which, with the exception of the springs, is made entirely of glass. The glass plates and pillars are bolted together with glass screws. Many of the parts had to be made over and over before a clock that would keep time was produced.

## Nine Lose Lives In Sea Tragedy

By Telegram to The Freeman  
(Also Nova Scotia, May 27—  
Nine men went to their death in the cauldron of seas when the steam trawler Mikado was wrecked Sunday night on Cape Fourchu reef. It was learned today.

Seven survivors of the Mikado have arrived here bringing with them the body of one of their companions who died after being rescued.

Survivors include the captain, two deckhands, two trimmers and second mate.

An unnamed survivor was a student who shipped at Digby N. S. for passage to England and who was taken off by motorboat and landed at Louisburg.

The wrecking of the Mikado was one of the worst marine disasters to be recorded off the coast of Nova Scotia in several years.

The trawler, a vessel of 240 tons gross was enroute to Grimsby, England.

A thick fog which hung over the sea was blamed today by the survivors for the tragedy.

### THE MANNISH KNITTED SUIT.

(By Eleanor Gunn.)

Due of course to their exploitation by the rank and file, monograms have lost a little of their prestige and crests are appearing in their place. Members of families who are the proud possessors of a family crest are having them emblazoned on their hats, scarfs and blouses, much as monograms were used. One must not infer that everyone sporting a crest is entitled to it. It has a decorative value and frequently nothing else. In London however tailors are embroidering crests which have a recognized status on suit pockets and stocks.

Both Paris and London go jauntily on in their tailored suits till Paris has adopted the simple straight line dress with a coat which is simplicity personified—unbelted, rather loose and usually of the same material as the dress. A garment which serves the purpose of a cape and has quite usurped the cape's position. It is another version of the ensemble idea one which is practical as well as chic.

There is a considerable amount of navy worn by smartly turned out women this spring and from Paris one hears repeatedly of women choosing this staple old time favorite. It may or may not be remembered that some style experts thought they detected gray in the offing as long ago as the Palm Beach days. There was some gray, but relatively little. The flame is fanned by rumors again from Paris that gray has been worn by women whose color decisions count, and that it has been chosen above beige.

Interest in knitted suits may not be at the fever heat that it was a year ago but nevertheless smart women are far from ignoring it. There are new ideas being launched constantly from Vienna the recognized headquarters for knitted things. The suit sketched follows mannish lines which are now world famous. It is in wool colors a light and dark tau, and is bound with a brown fiber.

While the little off-the-face hat which tops it has a binding, many of the smartest felts follow the English trend and omit bindings a cavalier sort of fashion in the sports spirit now prevailing.

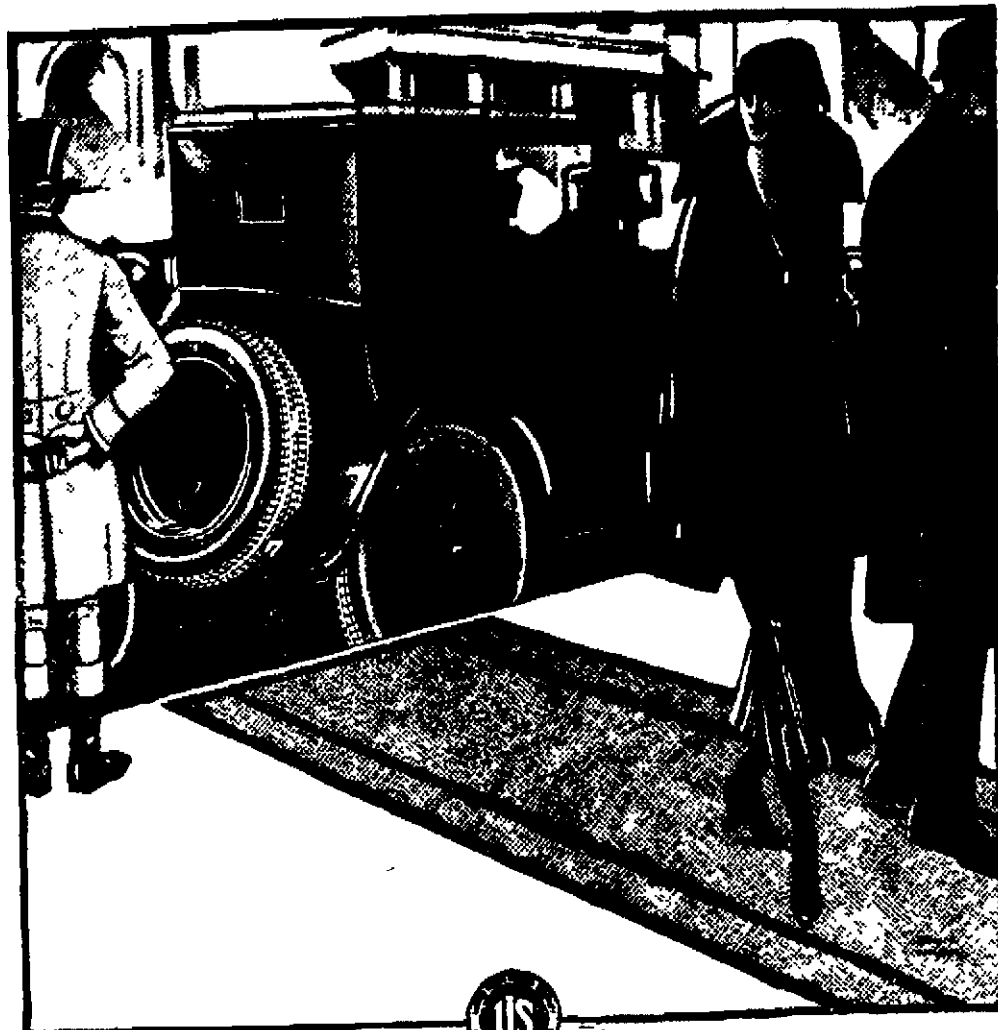

One reads with amusement that in a frantic effort to introduce a new note in hosiery some extremists have gone as far as harmonizing colors by having each ankle in a different shade. Black and tan shoes continue to be best liked and there are novelties on simple lines.

## UNITED STATES TIRES ARE GOOD TIRES

## Well Shod Motors

In addition to outstanding advantages in service—Royal Cord Tires add to the appearance of any car.

These long-wearing, handsome tires never seem to look down at the heel—no matter how far they have gone.

Part of this is due to their perfectly balanced construction and part to the use of latex treated cords. This new patented latex treatment is a major contribution on the part of the makers of

Royal Cords to better tire service. It is the outstanding tire development of today.

You get the benefit of it in all Royal Cord Tires whether you buy the standard high-pressure type—the full Balloon for 20, 21 and 22 inch rims or Royal Cord Balloon-Type Tires built to fit present wheels and rims.

Consult your dealer about the type for your car but insist on Royal Cords.

United States Rubber Company

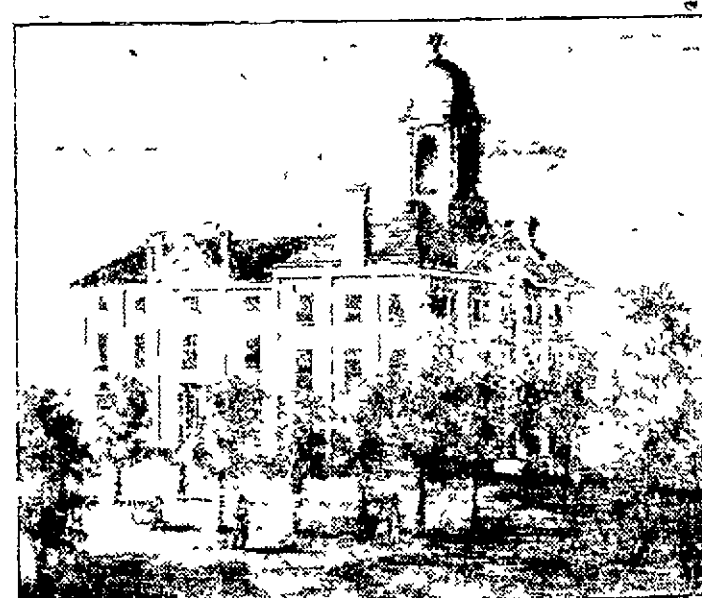

U. S. Tires are the only tires in the world made of cords solutioned in rubber latex.

## See Your Doctor, Do as He Says

Sound Advice Radiated by State Health Commissioner Who Tells People How to Live Longer.

"You can live longer," said Dr. Matthias Nicoll, Jr., state commissioner of health, in a radio talk broadcast recently from Station WGY, Schenectady. He stated that the old motto of the Greek Epicurians "Eat, drink and be merry, for tomorrow we die," seasoned with common sense and brought up to date is "eat and drink the right things in moderation and be merry, but put off the dying as long as possible."

"To most people under forty death seems a long way off," said Dr. Nicoll. "The pleas of the preachers and life insurance salesmen that they prepare for the end, since no man knows what the morrow may bring forth, finds them 'hard boiled' after forty they begin to get a new point of view: the years pass more quickly and birthdays begin to follow each other with startling rapidity, they discover that life is sweet and that after all the accepted span of life is far too short."

"Suppose you who are listening could tonight be given a choice, between reporting to St. Peter on a certain stated birthday, say your sixtieth, or, for a reasonable consideration, having another ten years added to your life. Most of you would take the extra ten years. Well, we submit to you here and now a similar proposition. Many of you can add from one to ten years or more to your lives by the simple expedient of going to a competent physician for a complete physical examination once a year. It will not be the examination which will make you live longer, but the advice the doctor will give you."

"An annual physical examination may not keep you from being run over by a train or blown up in an explosion. Yet it has been found that many accidents especially among people working with machinery or in dangerous occupations, have resulted from poor eye-sight or hearing, dizziness or fainting spells, fatigue and other conditions which might not have developed if early defects had been discovered and corrected. It has been estimated that at least half of the deaths which occur could be prevented or postponed."

"There is another side to the proposition right now some of you are worrying because you think there is something wrong with your physical condition. You are keeping away from the doctor fearing that he will tell you something you don't want to hear. It is more than possible that a thorough physical examination would reveal the fact that all you need to make you 'as good as new' is a change of diet or work, a rest or something else which could be as easily arranged. It could be worth the price of the examination to you to know that you are not the wreck you think you are."

"Now a word about the doctor. Make your arrangements for your annual examination with the most competent one you know. Don't expect him to do the work for nothing. When your garage man gives you out his annual overhauling you pay for it and consider it economy because you know it will prolong the life of the car. Multiply your garage bill by several hundred and you will

## Lack of Rural School Teachers

The director of the New York State School of Agriculture at Cobleskill is responsible for the statement that the demand for well-trained rural school teachers is far in excess of the supply. This statement is sponsored by the fact that even though the graduates in this department at the state school do not finish until June 20th, all of the present members of the class had secured positions by May 15th.

Furthermore, requests for teachers are continually coming in so that without a doubt, three times as many graduates could have been placed. It is a matter of very great public concern when rural schools of the country cannot be supplied with sufficient qualified teachers.

The prospective increased enrollment in this department has necessitated putting on additional instructors, and without a doubt, the coming year will see the biggest graduating class in teacher training that the state school has yet experienced.

The course is open to all persons at least 17 years of age, who have graduated from high school. Also, the state school has strong departments of home economics and agriculture. The 1924-25 catalogue will soon be ready for distribution and those wishing copies should write to the director, New York State School of Agriculture, Cobleskill, N. Y.

## "Pajama Party" Led to Teacher's Death.

LOUISE GERRISH

An anonymous letter, taunting Louise Gerrish, a pretty Amherst, Me., school teacher, about a "pajama party" she is alleged to have held in her bedroom, is the clue upon which Maine authorities hope to solve the brutal murder of the fifteen-year-old girl, whose short-sleeved body was found in a shallow grave a short distance from her boarding house.

See what the annual physical examination will really be worth to you, but the doctor probably will charge you no more than the garage did. The most valuable service any doctor can render you is to keep you well."

## Amazing New Way to Make Ten Years Vanish in Ten Minutes

Sit Before Your Mirror and See Your Wrinkles Disappear  
With First Application of Spanish Chemist's Discovery

Lines that add ten years to the appearance of your face can now be wiped out in 10 minutes! The disfiguring flabbiness of skin on the face and hands—once a sign that woman's attractiveness would soon vanish like a faded rose—can now be banished with amazing swiftness.

These startling things are true because a well-known Spanish Chemist, Jacques Onamor, recently made a great discovery.

His discovery is in the form of a scientific compound that rejuvenates the skin and fairly lifts out wrinkles. Onamor, as this discovery is called, was first produced at the insistence of some of America's foremost stage and society women, to whom money was no object. They demanded a preparation which would remove wrinkles and prevent signs of the ravages of age from appearing on the face and hands.

So amazingly successful was Onamor in performing this service, that it is now prepared on a large scale and is offered at a price which makes it available to all women everywhere.

Onamor works on an entirely new principle, for it gets at the cause of wrinkles—under the skin. There it builds up and revitalizes weakened tissues, stimulates circulation, refines

and clears the skin, removes all flabbiness and wrinkles. Onamor is pleasant to use. It will not clog the pores; contains no earth or clay. It needs no massage—the cream itself does the work. Its beneficial results show immediately. In the first 10 minutes you can see your wrinkles go!

Applied night and morning to the face and hands, it will soon prevent visible ageing and keep wrinkles from returning.

Onamor is being used daily by the greatest social leaders and stars of the stage and screen.

Don't have wrinkles a day longer!

Go to any druggist or department store named below and purchase a tube of Onamor with this guarantee of satisfaction: if you are not delighted with the wonderful improvement in your complexion from the very first application of Onamor, every cent you paid for the tube will be refunded.

You can get Onamor with this guarantee at the following good stores:

McBride Drug Store, W. S. Elting, Menden & Walker, Bonanza Pharmacy, Weber's Pharmacy, Connolly Drug Co., Wonderly Co., Rose-Gorman Rose, or write for free book "How to Prevent Facial Ageing" The Onamor Co., 85 Madison Avenue, New York City.

## TODAY WE CELEBRATE

SARAH MARTIN.

Sarah Martin was born in 1791, and was famed for her Christian benevolence. Her father was a poor mechanic in Caister, a little village three miles from Yarmouth, England. She was the only child of her parents who both died when she was young, she being reared by her grandmother Bennett. In 1820, receiving a small inheritance of 12 pounds per annum from the estate of her deceased grandmother, she moved to Yarmouth where she gave up her entire labor and time to the relief of, and education of the poor, in particular aiding struggling young women to secure the education denied them because of poverty or lack of women's schools.

She died on the 15th of October, 1843, aged fifty-two years.

ST. PETERSBURG (PETROGRAD.)

This is the anniversary of the founding of St. Petersburg, for it was on May 27, 1703, that Peter the Great built a small hut for himself, and a few hovels for his companions, on the site of the modern capital of Russia. In 1711 the emperor, with his own hands, laid the foundation of a house of brick, which was to be his palace, and transferred the seat of empire from ancient Moscow to the village which is now a city of over two million inhabitants, and the rival of Chicago, Berlin, Tokio and Vienna for fourth place among the world's cities.

The first Peter laid the foundation of the future capital on one of the islands of the Neva delta, but the main part of the present city stands on the mainland, on the left bank of the Neva. St. Petersburg's principal thoroughfare, the Nevsky Prospect, is 130 feet in width and one of the finest streets in the world.

The 1924-25 catalogue will soon be ready for distribution and those wishing copies should write to the director, New York State School of Agriculture, Cobleskill, N. Y.

## SEEK MURDERERS OF MILLIONAIRE'S KIDNAPED SON

ROBERT FRANKS, MR. JAMES FRANKS & JAMES FRANKS, JR., RANSOM LETTER, WHERE BOY WAS FOUND & TRAVELER'S CHECK

Spurred on by rewards offered by Jacob Franks, multi-millionaire Chicago manufacturer, police of Chicago are centering their activities on finding the kidnapers and assassins of Frank's fourteen-year-old son and heir, Robert. The boy disappeared on his way from a private school to his father's palatial home. Later, this letter, couched in perfect English, was received, demanding \$10,000 ransom. Before the lad's father could comply, the boy's body was found in this culvert, far from his home. A strange turn was given to the case by the fact that a pair of spectacles was found on his face, though he had never worn spectacles in his life. Mr. and Mrs. Franks have one other son, Jacob, Jr. It has been proved that at the time the ransom letter was received the boy was already dead.

Up Steamer leaves Kingston Point 2:25 P. M. for Catskill, Hudson and Albany, arriving at 6:45 P. M.

Music. Restaurant. Luncheon.

NOTICE TO CREDITORS—In pursuance of an order of Hon. George F. Kaufman, Surrogate of Ulster County, N. Y., in the matter of the estate of James E. Snyder, deceased, intestate, to prevent the same with the vouchers in support thereof, to the undersigned C. Ferdinand Snyder, the administrator of the estate of said deceased, at his residence, Mr. Marion, N. Y., in the said town of Saugerties, Ulster Co., N. Y., on or before the first day of August, 1924.

Dated, Kingston, 1924.

C. FERDINAND SNYDER,  
Administrator & etc. of James E. Snyder.

NOTICE.

The annual meeting of the Hudson General Association for the election of officers and trustees and such other business as may come before the meeting will be held at the cemetery on Friday, May 27, 1924, at 2 p. m., standard time.

JAMES A. SIMPSON,  
Secretary.

The following lodges hold regular meetings this evening:

Bricklayers' and Masons' Union, No. 14, at city hall.

Kingston Lodge, No. 970, L. O. O. F., 562 Broadway.

Vanderlyn Council, No. 41, D. of A., 14 Henry street.

Ladies' Auxiliary, No. 53, Tappan Camp, No. 1, S. of V., at Cook's Hall, Railroad avenue.

Kingston Lodge, No. 10, F. and A. M., Masonic Hall, Wall street.

The St. Vincent de Paul Society will meet this evening at 8 o'clock at St. Mary's school hall.

An Auto Mixup.

Monday afternoon about 5 o'clock while Mr. Malia was driving down the Rogers street hill and turning into Broadway, another car driven by an Italian, came down Broadway, and the two cars came together. The car of A. E. Butler, the Broadway grocer, was parked in front of the store at the foot of Rogers street and had a wheel broken. The other two cars were also damaged, but no one was injured.

**Knew Their Place**

Before beginning his sermon one Sunday night a negro preacher making his announcements, among other things, said, "Brethren and sisters, I want you all to condescend to Brother Jones, where I am being entertained; last night he left his hen coop door open and 16 fat Plymouth Rock chickens went back home."

**Practical Lover**

Mrs. Jackson—"Say, Miss Johnson, did Sambo give Celestine a ring for being engaged?" Mrs. Johnson—"No, Miss Jackson, he done better 'n dat; he gived her a engagement wringer."

## Financial and Commercial

By Telegraph to The Freeman.

New York, May 27.—Prices were somewhat irregular at the opening of the stock market today. Changes as a rule were unimportant, being confined to small fractions in leading industrials. A weak spot was Punta Alegre Sugar which lost 1/4 to 51.

In the railroad list, Norfolk and Western and Delaware and Hudson were constructive features, the former rising 1/4 to 126 1/2 and the latter 1 point to 118. U. S. Steel rose 3/8 to 97 3/4 and American Can 1/4 to 104. Oils were slightly irregular.

Prices moved in a narrow radius in the forenoon trading. The volume of transactions showed a sharp contraction over recent sessions. The trend was somewhat irregular, due to a desire of floor traders to realize on paper profits accumulated in the advance of the last several days, but sufficient strength appeared in other quarters to preserve the stability of the main body of shares.

It was a waiting market in which the tax situation was the overshadowing influence. There was a belief in financial circles that the president would sign the conference bill.

As could easily be expected, profit taking was most pronounced in stocks which had a sharp recovery to their credit, like Stewart Warner and the Pan-American.

Sugar shares evidenced a decidedly heavy tone in connection with the downward trend in the commodities. On the other hand bullish operations went confidently ahead in a few specialties among which International Paper and Cast Iron Pipe were prominent.

## About the Folks

Mrs. Elizabeth H. Coddington of Oradell, N. J., is the guest of relatives in this city.

Miss Pauline Sutton of 366 Broadway, who was quite ill at her home with the measles, is able to be around again.

Mr. and Mrs. Willis Roe of Crane street are receiving congratulations on the birth of a daughter at the Benedictine Hospital.

Mr. and Mrs. Milford Coan of High Falls are receiving congratulations over the birth of a daughter, Virginia Rhea, born May 17.

Miss Dorothy Mead, daughter of the Rev. George Mead, is convalescing following an operation performed at the Benedictine Hospital.

Mrs. Andrew Murphy, Jr., who underwent an operation at the Benedictine Hospital some time ago, was removed to her home in the Leo Grogan ambulance on Monday.

Barentson Bishop, son of Dr. and Mrs. Cornelius H. Bishop, is a member of the graduating class at Washington and Jefferson University, and is expected to return home shortly.

On Saturday Prof. William H. Rieser, organist of St. Mary's Church, underwent a serious operation at the Benedictine Hospital. Dr. Mark O'Meara was the surgeon and under his skillful care Prof. Rieser is doing as well as can be expected.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Adolphus Haines died this morning at his residence, 12 Alcazar avenue. He is survived by four sons, John, Joseph and William of this city and Roy of Mt. Vernon, and three daughters, Mrs. Walter Scott Crook of Philadelphia, Mrs. Emma Rhind of Mt. Vernon and Fannie of this city. Funeral on Friday afternoon at 2 o'clock. Interment in Montrose cemetery.

Mrs. Emily Helen Smith of Catskill died at the home of her daughter, Mrs. Edward B. Fiero, in Malden, on Sunday, May 25, aged 56 years. A cancer caused her death. Deceased was the widow of Frank Smith. The surviving daughter will receive the sympathy of many friends. The body was taken to Catskill and funeral services will be held Wednesday, May 28. Interment in Catskill Village Cemetery.

Mrs. Mary L. Burnham died Sunday night at the home of Mr. and Mrs. John Schuhle in Highland. Mrs. Burnham had been in delicate health for a long time but about a week ago fell and fractured her hip, causing a more serious condition. Mrs. Burnham was 83 years of age and is survived by one daughter, Mrs. John Schuhle, and one sister, Mrs. Arthur Root of Montague, Mass. The funeral services will be held this evening at 7:30 at the home of Mr. and Mrs. Schuhle with interment in the family plot at Montague City, Mass., on Wednesday.

Nicholas E. Souser died this morning at the Benedictine Hospital following an extended illness. Mr. Souser was noted for his congenial disposition by his fellow workers and also by his friends and acquaintances with whom he came in contact at the Kingston Hotel, where he was employed for a number of years. He is survived by one daughter, Mrs. Irving Egnor of this city, and one brother, Nelson H. Souser, of this city and two sisters, Mrs. Richard Sturkove of this city and Mrs. Silas Sutton of Providence, R. I. Funeral Thursday afternoon at 2:30 o'clock from the funeral home of Thomas J. Wolf. Interment at Lake Katrine.

**Practical Lover**

Mrs. Jackson—"Say, Miss Johnson, did Sambo give Celestine a ring for being engaged?" Mrs. Johnson—"No, Miss Jackson, he done better 'n dat; he gived her a engagement wringer."

New York World.

**The Family Wash**

The old-time prosperous family that used to unfurl to the neighborhood vision 400 feet of clothesline fluttering like white sails in a yacht race now has a successor that washes its silken lingerie in the washbowl and dries it on the radiator overnight.—Houston Post.

**Man Locked in Safe by Yeggs Almost Suffocated**

Cleveland.—Imprisoned in an eight-foot vault by two armed robbers, Clayton Webb, manager of the City Savings and Loan company branch office in east Cleveland, was carried out unconscious after 45 minutes, in which he faced death by suffocation. From the vault and cash drawer in his cage the bandits took approximately \$4,000 and escaped. They overlooked \$5,000 in the vault. Webb was quickly revived.

Before officials from the main office reached the branch bank and rescued Webb, east Cleveland police worked for 20 minutes in an effort to get him out after Webb had shouted the numbers of the vault's combination through the steel and concrete walls.

**Machiavelli's Work**

"The Prince," the famous and ex-acted political treatise which brought fame and ignominy to Machiavelli, was written in praise of the policy of Cesare Borgia, who sought to establish some kind of a united Italy.

**Will Get Along**

A man who is born healthy to start with, and properly taught to breathe, to eat, to keep clean, and to look on the bright side of things, will seldom have very much use for a doctor.—Uncle Henry's Sayings.

## 15 Year Old Boy Killed Teacher

By Telegraph to The Freeman.

Amherst, Maine, May 27.—Roland MacDonald, 15 year old school boy, who has confessed he murdered his teacher, pretty 19 year old Louise Gerrish, today had offered no motive for the brutal slaying. Investigators expect to discover none. Roland is over-developed physically and under-developed mentally.

Backward in his studies, cruel to his pets, a blood lust uncontrolled by reason prompted him to level his "old man's" shot gun at the unsuspecting girl as she walked along the narrow roadway to the postoffice.

"My aim was bad," he told the sheriff, thus voicing his only regret in the awesome affair. He said he had aimed at the girl's head and the charge of buckshot tore through her breast.

Because "supper was about ready," he hurriedly dragged the girl's body off the road into the bushes and left it there until next morning.

Neighbors tell of the boy's cruelities. They tell of his ferociously devised methods of torturing and killing small animals, sometimes in manners too revolting to describe.

"Her head left a funny mark when I dragged her through the grass," said the boy, describing how he returned the following day to dispose of the body. "When I got tired dragging her," he said, "I commenced digging and soon had her covered up."

"No, I didn't hate her," young MacDonald said. "She was just like other teachers, but I didn't hate her. I just decided to shoot her when I saw her coming along the road."

MacDonald said the girl had frequently tried to encourage him in his studies when she saw him doing chores about her boarding house, but he did not resent this, he said.

The confessed slayer was absolutely unmoved as he guided the authorities over the scene of the crime. His demands for cigarettes, however, all that could be interpreted as indications of nervousness. He is oldest of ten children. His brother, Victor, is held as a material witness.

**SUES ESTATE OF MAN WHO HANGED SELF**

St. Louis, Mo.—John P. Martin, formerly manager of the Martin building, came to the home of Mrs. Mary Shupe, he agreed to conduct himself in an orderly manner and not interfere with the welfare of the family.

But a few months later he went to the basement of her home and committed suicide by hanging himself from a water pipe.

This, Mrs. Shupe contends, was a violation of his agreement, and she brought suit for \$10,000 damages in the Circuit court against Joseph E. Martin, administrator of the estate of John Martin.

In committing suicide at her home, she complained in her petition, Martin "acted voluntarily and intentionally and knew he would disturb and disrupt the peace and quiet" of herself and family.

Martin, she explained, lived at her home as a roomer and boarder for about six weeks prior to his death. During that time, she declared, he conducted himself in a "reasonable and orderly" manner, according to agreement.

But, without even "notice or warning," Mrs. Shupe alleges, he went to her basement and ended his life.

The next morning, she complains, she went to the basement and collided with Martin's body. The discovery, she added, severely shocked her nervous system, and as a result her health was greatly disturbed. She later became "sick and ill," she asserted, and had to get the services of three physicians.

The illness, she said, is permanent and she is unable to perform her household duties.

Martin is one of the heirs to the Martin estate.

**Child Believed Dead for Two Years Given to Mother**

New York.—There is joy in the home of Mr. and Mrs. C. L. Shoemart and sorrow in the home of Mr. and Mrs. Vincent Fiorella over one of the strangest mix-ups of babies ever recorded here.

For nearly two years the Shoemarts had mourned the death at birth of their son, born March 6, 1922. Mr. Shoemart had paid the funeral expenses. On the same date a baby was born to Mrs. Fiorella. The Fiorella baby was the one that died, but through an error at St. Barnabas house, city mission, the babies were mixed. The error was not discovered until recently, the baby having been cared for at St. Barnabas house, a charitable institution, until the mother was able to care for it. Then Mrs. Fiorella wouldn't accept the child. She said it wasn't her Joseph.

## MEN AND WOMEN IN NEWS OF THE DAY.

Above: MRS. WOODROW WILSON & COUNTESS MORONI  
Below: DANIEL G. REID & EVELYN SUE RICKNER

Mrs. Woodrow Wilson, widow of the late ex-president, fell and fractured a small shoulder bone on a recent visit to friends in Virginia. Mrs. Evelyn Sue Rickner has been found not guilty in Anniston, Ala., of the murder of her husband, Lieut. James C. Rickner, U. S. A., whom she shot to death in his quarters there. Daniel G. Reid, American tin plate king, has returned to New York from Europe with his personal physician, valet, barber, companion and four attendants, after a vain search for health. He has not slept a restful night in two years and smokes thirty cigars daily to steady his nerves. Countess Moroni, formerly Eleanor Jerwin, of New Orleans, and noted Southern beauty, is soon to marry Sir Mortimer Davis, Canadian tobacco king and one of the Dominion's wealthiest men. She secured a divorce a few years ago from the Count.

## What Graduates Should Know

Middletown's Superintendent of Schools Lists Subjects Grammar School Graduates Should Know. Things They Should Do.

The tenth annual spring conference of the Poughkeepsie district of New York State Mothers and Parent-Teacher Associations was held in the Memorial Grammar School at Middletown on Saturday, May 24, with Mrs. Horace B. Young of Middletown as leader and 150 delegates present.

The morning session opened with the singing of America, followed by the reading and approving of the minutes of last year's conference at Kingston, and the treasurer's report. One district chairman, Mrs. Selden H. Hall of Poughkeepsie, gave her annual report. The number of clubs in the district has increased from 47 to 63 during the year. Mrs. Hall has visited the 25 associations, ten for the purpose of organization, the others as speaker and visitor. She attended the state convention at Auburn, state executives at Ossining, Utica, and Binghamton, and the hearing on the Rural School Bill at Albany. With the numerous letters she has written, telephone messages sent, etc., she has had a very busy and interesting year.

The district secretary, Mrs. W. R. Anderson of Kingston, and the treasurer, Mrs. R. W. Quakenbush of Cornwall-on-the-Hudson, were both re-elected. The roll was then called accompanied by reports from the various clubs. At 12:30 p. m. luncheon was served in the North Street Congregational Church. From 1:45 to 2:15 p. m. round table conferences were held in different rooms. The subjects were "Story Telling for Children," "High School P. T. A.'s Food and its Relation to Health."

The afternoon session opened by prayer by the Rev. A. B. Hotchkiss followed by singing of the "Mother's Song." The address of welcome was given by E. H. Bendick, superintendent of schools in Middletown.

Mr. Bendick estimated the cost of the education of a pupil for his eight years in grammar school as \$450 and that unless our educational standards are much lowered it will not be less in the future. He then proceeded to prove that it was worth that amount to the community considering what we had a right to expect the school to do for the average pupil.

Mr. Bendick thought we should expect a grammar school graduate to read silently and easily any ordinary book, newspaper or magazine; understand ordinary printed directions, read a poem or printed article aloud readily, pronouncing ordinary words correctly, and to write a business or friendly letter, telegram, bill, receipt or promissory note, spelling the words correctly; look up a word quickly in the encyclopedia; perform simple, fundamental mathematical operations quickly and accurately; know the main facts of American history and our Constitution, causes and results of the World War and our part in it; know something of the illustrious men and women of our country, our typical American institutions, the ideals and traditions upon which our country was founded; comprehend the major land, water and political divisions of the world, its people and industrial products; be intelligent about the laws of health and hygiene; be able to read simple vocal music and sing a part; know the elementary principles of drawing and a few good pictures; the boys to understand using common tools and machines, the girls to understand plain cooking and sewing; both boys and girls to learn a spirit of tolerance and brotherhood, a hatred of war, independence of thinking, respect for the rights of others, ability for leadership and taking responsibility, courtesy and self-control.

Dr. Florence Sherman, New York state assistant medical inspector, spoke about the firm convictions she had formed through her 16 years of school and health work with the state department of education. She admired the Chinese custom of paying a doctor to keep you well rather than to cure you when ill and said the slogan of today is "Keep Well, Not Get Well." She spoke of the right of the child to be wanted and well born of physically and mentally healthy parents and to have his mother's milk as long as he needs it, both of which rights are so frequently disregarded. He has also a right to properly equipped, sanitary schools, properly ventilated, and his parents should know whether the temperature is right, the light good, his seat comfortable and his drinking water pure. He has the right to be caused to form good health habits both at home and at school, to the right environment, positive not negative instructions, and for those in charge of him to practice what they preach that he may have their example as well as precept.

Miss Lillian Sundstrom gave a very delightful group of vocal solos after which the state president, Miss F. M. Hosmer of Auburn, addressed the congress upon "Parent-Teacher Associations as a Community Asset." She spoke of the rigors our ancestors endured in the early settlement of our country, of the bravery and courage of our western pioneers, the dull monotony of their daily lives, their educational problems, and wondered whether our lives were too soft, too padded with creature comforts, and if our posterity would look back upon us with the reverence we look back upon our ancestors. However, we have social and economic problems both civic and political and the Parent-Teacher Association seems best fitted to steady those problems as the members come together, without regard to race, creed or class to promote the welfare of the child. She urged clubs to study the needs of the pre-school age and high school associations to work on the problems of the adolescent period.

Mrs. Hall awarded a prize to the America Association as having the most delegates present (18) in proportion to its size and distance traveled. It was voted to accept the invitation to hold the conference next spring at Beacon. The following Kingston delegates were present: Mrs. W. R. Anderson, district secretary; Mrs. Harry P. Dederick, president Federated Council; Miss Marguerite Cordes, secretary Federated Council; Mrs. A. H. Russell, from No. 2 P. T. A.; Miss Grace Lounsberry, Mrs. Justin Fields and Miss Jennie Nisely of No. 6; Miss Ruth Newkirk of No. 5; Mrs. Gerard Betz of No. 7, and Mrs. F. N. Longyear of No. 8.

## Athlete Is President of Naval Graduates.

B. O. MATHEWS

Midshipman B. O. Mathews, of Denver, Col., has been elected president of the graduating class of the United States Naval Academy at Annapolis, Md. He was a member of the football and baseball teams, and rowed on the winning crew.

## Pruning Old Orchards

In pruning an old neglected orchard it is not advisable to do all of the pruning at one time as it is apt to result in stimulating secondary growth. It is much better to remove a portion the first year. This will keep the tree in its proper growth balance and prevent, to a large extent, second growth.

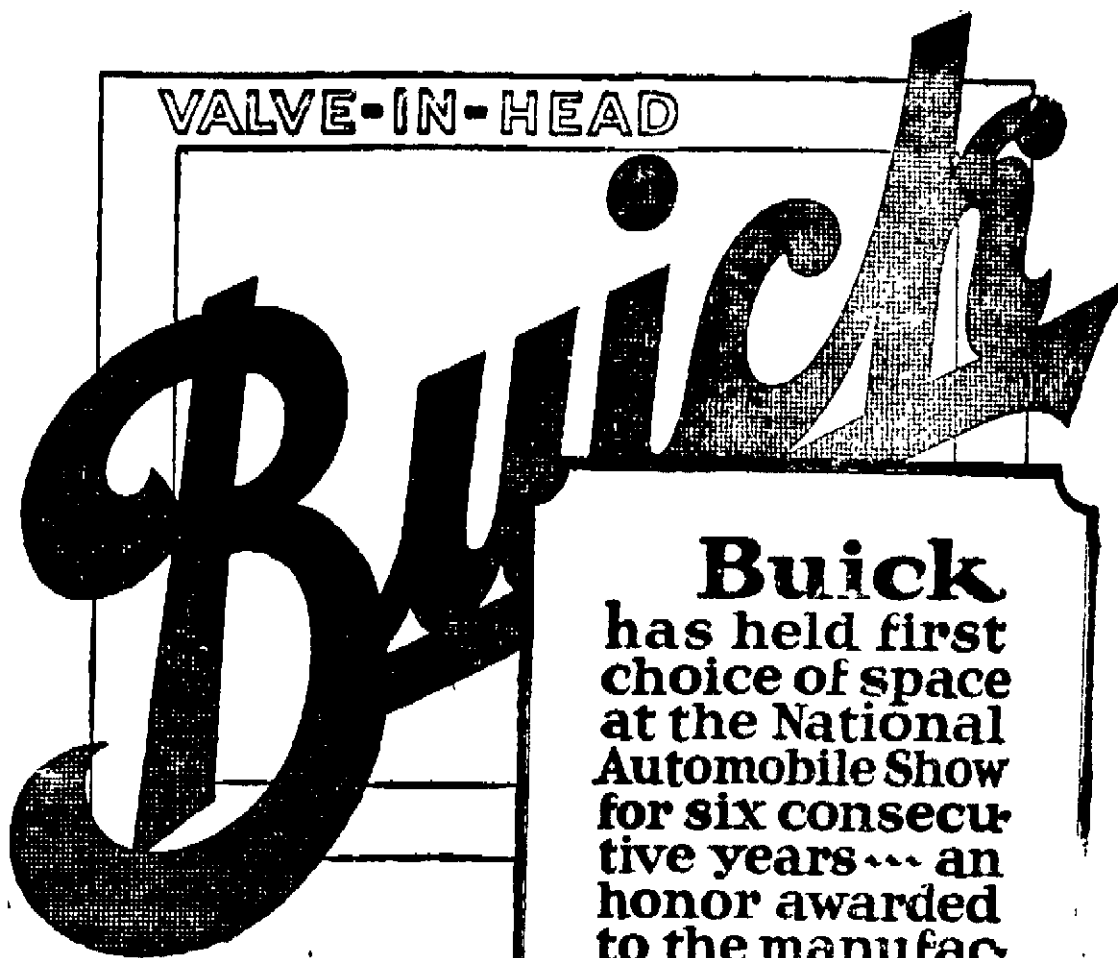

## Spray for Sucking Insects

Sucking insects are those which take their food in the form of juices through the sucking tubes which they insert below the surface of the leaves, fruit or stems. Plant lice are sucking insects which attack many plants. It is quite evident that these cannot be killed by the same treatment as the biting insects. The sprays must be in direct contact with the insects.

## New Street-Car Idea

Hope appeared on the horizon of the strap hanger the other day in Detroit in the form of a new type of street car. This car, or rather three-in-one car train, is designed to give greater seating capacity for the same street space than the usual type of cars. It consists of three connecting cars on four sets of wheels and seats 140 people. The street railway company also wins, as the three-in-one train weighs less and is cheaper to run than three ordinary type cars.

## How Immigration Will Be Reduced

The new immigration law signed Monday by President Coolidge, makes the following provisions:  
Preserves the basic immigration law of 1917.

Retains the principle of numerical limitations as inaugurated in the act of May 19, 1921.

Changes the quota base from the census of 1910 to the census of 1890.

Reduces the percentage from three to two, plus a small base quota from each country.

Provides for preliminary examination overseas.

Exempts children under 18 and parents over 55 of American citizens.

Reduces classes of exempted aliens.

Places burden of proof on alien rather than on the United States.

Meets the situation with reference to admission of persons ineligible to citizenship.

Carries numerous sections to lessen hardships of immigrants.

Quotas under the three new laws will be as follows:

Present

Law 1921 1922

Nation Law 1921 1922

Great Britain 77,412 62,158 91,110

Germany 47,607 50,129 22,017

Italy 42,057 3,889 5,874

Poland 30,874 8,823 4,509

Russia 24,405 1,792 4,072

Sweden 20,042 9,561 3,706

Norway 12,295 6,152 2,113

Czechoslovakia 14,357 1,873 1,119

Rumania 7,110 621 786

Austria 7,319 990 1,812

France 5,792 1,878 2,828

Bulgaria, Greece and Spain, each

allow but 160 immigrants under the new law for the next three years, would have in 1927 the following quotas: Bulgaria, 32; Greece, 326; and Spain, 111.

## A Keats Phrase

"Here are sweet pons," he said, "on tip-toe for a flight"—a phrase which will give grace, better than water, to your garden. For words make the world grow—not, I think, because they express a feeling, for that means that they relieve you of it, but because they give to the feeling a locality and distinct body. It comes down like dew out of the general air and alights here in a bright drop.—Max Eastman.

## New Scale Invented

Electrically-operated scales have been invented that prevent more than a desired amount of dry groceries being poured from bins into receptacles.

## Noted Musicians At St. Mary's

Special Musical Program in Connection With Bazaar on Wednesday Evening Is Expected to Delight Large Audience.

The St. Mary's Church bazaar under the auspices of the parishioners of St. Mary's, opens this evening at St. Mary's school hall. There is a large variety of pretty and useful articles displayed at very attractive prices.

On Wednesday evening those attending the bazaar will be treated to a very special musical program. Musical renditions will be offered during the evening as the special attraction. A trio number which promises to be highly pleasing to music lovers, composed of the Vesemers, father and son, recently from Europe, and Richard Myer, will be the opening number. The Vesemers are very clever either players and Mr. Myer a well known local violinist. Other numbers on the special musical program, which are expected to be very pleasing and entertaining, will be by a quartet composed of Miss Cushman of Napanoch, Miss Ruth Byrne, Clyde Matthews and Thomas Dolan. The quartet will render light opera selections. The youthful little prodigy, Nicholas Murphy, will also sing. The musical director has arranged a unique musical entertainment, which promises to reflect much credit upon her selections.

### HOMESPUN YARN

Aunt Ada's Axioms: Consistency may be a jewel, but is needs a setting of common sense.

The small boy who defined salt as "what makes things taste bad if you put it in" was wise.

A household schedule that does not find some place for a little time out of doors is likely to be a poor schedule.

People who get fussy about their digestion and assume personal control of their nerves have "nerves" that are apt to have no digestion. Happiness is health.

An aluminum tea or coffee ball, which can be purchased for 10 or 15 cents, will save the trouble of tying table spoons in cloth bags, when they are being cooked with pickles or fruit.

Use your strength but don't waste it. How to save it in doing the household tasks is told in a bulletin issued by the state college at Ithaca. Many women want it that a new edition has been issued. Your copy ready. Ask for H 138, on a postal card.

### One Department Awaits

One department of the government may be said, with justice, to fall occasionally on the job, but one department is willing to testify to the wide-awakeness of the United States bureau of animal industry. The bureau had ordered a set of dishes from London, England, and long before their arrival was the recipient of a letter from the bureau stating a set of goods, packed in straw and exported from London, had been consigned to her and that, because of the danger of spreading germs of the hoof-and-mouth disease into the country, the set must be destroyed. However, the bureau heads did not trust to the bureau's discretion in burning the set. She was requested to notify the local bureau of the consignment's arrival, whereupon an inspector would see personally to the destruction of the straw. —Detroit Free Press.

### Farming in Portugal

Portugal will aid its agriculture by giving farmers with implements and fertilizers and instruction in how to use them. The scheme, as announced by Doctor Oliveira of the Instituto Agrícola de Lisboa, involves giving the unskilled farmer to get the most possible from his soil by means of intensive cultivation. The government will supply the necessary agricultural machinery and will also employ one or more directors who will have the supervision of the work undertaken. There is no intention to get at the expense of the farmer, it is announced, and all profits gained from the intensive and systematic cultivation practiced will revert to the farmer. There is a shortage of agricultural power in the country districts and, in fact, it is thought, will stimulate demand for tractors.

### To Fit the Price

A toxemia physician prescribed a form for a patient. This is a powder in medicine in powdered form for use in serious throat infections. The physician didn't say how much to get, but he said what the cost might be. A man of the house walked into a store. "Want some orthonorm," he said. "All right, how much of it?" asked the druggist. "What does it cost?" "Four dollars a pound." "Come two drams." —Kansas City

### Making Maypole Useful

A famous Maypole in the Strand in London was 344 feet long and was used by Sir Isaac Newton, who used it as a support to the great telescope which had been presented to the society by a French astronomer.

## JACQUES' CAPSULES relieve INDIGESTION Quickly

Jacques' Capsules are quickest relief known. The pure, standard medicines break up gas, relieve indigestion. One or two with swallow of water make you feel comfortable at once. Satisfaction or money back. 36 Capsules in a package at a moderate price, at any drug store.

## Pioneer Vets Met and Dined

First Annual Reunion of F-51 Held at Golden Rule Inn Monday Evening—Officers Elected and Banquet Served—Brief History of Company F.

May 28, 1918, the members of Company F, 51st Pioneer Infantry, were inducted into the United States Army and left Kingston for Camp Wadsworth, and several months later were landed in France. Monday evening, May 26, 1924, six years later, the first annual reunion of Pioneer Veterans of F-51, an organization composed of old Company F, was held at Golden Rule Inn, Ulster Park.

It was largely through the efforts of Peter Keresman, Jr., Eugene Cornwell and Martin Mooney that the organization now known as F-51 came into existence and now has a membership of 29, the majority of whom were present at the first reunion. The boys met at the state armory here and were conveyed to the inn by automobile.

A business session was held in the large dance hall and President Keresman briefly explained the purpose of the organization which came into existence on November 20, 1923. The constitution and by-laws which had been drawn up were read and adopted. Among other things it is provided that the annual meeting be held each year as near May 26 as possible, as that was the day when they were inducted into service.

Officers Elected.  
All of the present officers of the organization were re-elected. The officers are: President, Peter Keresman, Jr.; first vice president, Edward J. Worman; second vice president, Barnard Blacklesie; secretary, Eugene Cornwell; treasurer, Martin Mooney; historian, Gordon Van Kleeck; sergeant at arms, Henry Munch.

The First Banquet.  
At the close of the business session the boys marched to the inn nearby where the following fine menu was faultlessly served:

Sweet Mixed Pickles  
Fruit Cocktail  
Cream of Tomatoes (Soup)  
Filet of Halibut  
Broiled Spring Chicken  
Peas a la Francaise  
French Fried Potatoes  
Waldorf Salad  
Ice Cream  
Cigars  
Coffee

During the serving of the banquet, Malenheider's orchestra rendered a fine musical program, and after the good things to eat had been tucked away under the vests of the former soldier boys, Albert Salzmann presiding as toastmaster called upon a number of those present, who spoke briefly. Among the speakers were President Keresman, Vice-President Worman, Secretary Cornwell, Treasurer Mooney, Historian Van Kleeck, Henry Forst, Leo Fitzgerald, George Planthaber and Ettore Raffaldi. They recalled the days of being inducted into service and of life overseas.

Members of F-51.  
The members of the organization are:  
Adams, Ray

Woerner, William  
Wisniski, Joseph

History of Company F.  
The following brief history of Company F, 51st Pioneer Infantry, was written by Historian Gordon Van Kleeck, which appeared on the back of the attractive menu card:  
"Company F, 51st Pioneer Infantry, was organized at Camp Wadsworth, South Carolina during the World War. It was brought up to full war strength in May, 1918. Nearly all the members of the company were from New York state, many of them leaving for Camp Wadsworth from this city, May 26th, just six years ago today, where they were assigned to the above company. After a few weeks of intensive training, the regiment moved by train to Camp Merritt to be outfitted for overseas duties. Going from Camp Merritt to Alpine Landing, and then by ferry to Wadsworth,

## THE UP-TO-DATE COMPANY KINGSTON, N. Y.

the regiment embarked on the "Kronland" for the place called "over there." Landed at Brest, France, on August 7th, and went to a so-called rest camp for a week. From there the company went by train to Seixau-Forges, staying there about ten days. The company then moved to a small village outside of Toul to occupy some of the small forts surrounding the city.

On September 18th, the company went to Toul where the men were paid, extra equipment turned in, and then started for the front. Here the real work began and from then until the Armistice was signed, the men worked repairing roads and barbed wire entanglements, at Feyen-Haye, Nivray, near the Puvellie Woods, and several other places. About a week after the Armistice was signed, the company started hiking for Germany, passing through Luxembourg, and on December 3rd, crossed the Moselle river into German territory. At Grevenmacher. For about ten days did patrol duty on the railroad at Wengerohr, leaving there for Treis where Christmas was spent. Continuing the march, the company arrived in Guis, on the Moselle, near Coblenz, on December 28th. Here the men were billeted with the German people and from then on they drilled, built a rifle range, worked on the grounds of the Third Army Cavalry, and some of them went to vocational school until in May.

On Mother's Day, May 11th, we started to move back into France, stopping at Wengerohr, Malicorne, Montauque, and finally arriving at St. Nazaire. There the company went through the final medical inspections, etc., before leaving for the good old U. S. A. On June 23rd, 1919, the company sailed from St. Nazaire on the steamer "Wilhelmina" and arrived in New York city on July 3rd.

The trip, both going and coming home, were uneventful except for sea sickness. The weather was fine except for some rough sea in the Bay of Biscay. Arriving at New York, the company went to Camp Mills, and after a couple of days spent there, moved to Camp 1100. There the equipment was turned in, final examination, signing of papers, and discharged on July 9, 1919.

### BLOOMINGTON.

Bloomington, May 26.—The play, "An Old Fashioned Mother," will be given under the auspices of the Baracca and Philathea classes of the Wurts Street Baptist Chapel, on Wednesday evening June 11, at 8 o'clock, after which ice cream and cake will be served. The following is the cast of characters:

Maine seed potatoes. Edward T. Mc Gill.

**Boxing Bouts And Baseball**

Those residents who enjoy sports will not have to leave Kingston on Friday, Decoration Day, for the Kingston Colonials have arranged a double header with the famous Doherty Silk Sox of Paterson at the Kingston Fair Grounds. The first game will be called at 10:30 o'clock in the morning and the second game in the afternoon at 3 o'clock.

Following the second game, arrangements will be made by the Kingston Athletic Association for staging the boxing bouts to be held at the Fair Grounds that evening at 8:30 o'clock. The big ring will be erected between home plate and the grand stand. There will be plenty of seats and one of the best boxing cards even seen in this section will be staged.

The star bout of twelve rounds will bring together Joe Colletti of Poughkeepsie and Terry Miller of New York, flyweights. This should prove one of the fastest bouts ever staged here. The semi-final of ten rounds will see Joe Werner of this city and Able Cohen of New York in action. There will also be two six round bouts. The first will bring together Don Hyatt of this city and Joe Romanello of Poughkeepsie. The second bout will have Dominick Petrone and Mickey Sappnick of New York. Petrone was former amateur flyweight champion and is now in the professional ranks.

The four round bout will be staged by David Abad of Panama and Sammy Shack of New York. Abad is said to be the Central-America flyweight champion.

**JIM VOLKER IS MAKING GOOD ON HIS TEAM**

Jim Volker, former twirler of the Studebakers of East Kingston, is now with Cossackie. Sunday he shut out the Veteran Royal Giants of Albany to the tune of 3 to 0. He allowed but four hits. Smedes of this city was his battery mate. Crowder, formerly with the Chippie Johnson's All Stars, was in the box for the Giants and was touched up for three hits. Decoration Day Cossackie will play the D. & H. Generals at Cossackie.

**Last Night's Fights.**

Boston—Johnny Sheppard, of Woburn, defeated Abe Attell Goldstein, world's bantamweight champion, in a grilling 10 round battle, but Sheppard's failure to reach the required weight deprived him of the title. Sheppard fought a hard battle and came from behind in the final rounds to defeat the champion.

Aurora, Ill.—Connie Currie, Sioux Falls, drew with Bud Taylor, Terre Haute, 10 rounds; Joe O'Hara, P. D., defeated Anthony Downey, Columbus, Ohio, six rounds; Ed Garvey, South Bend, defeated Soldier Lee, Omaha, four rounds.

At Pittsburgh—Jack Zivic of Pittsburgh, outpointed Ray Mitchell of Philadelphia, 10 rounds. Beaver Falls, Pa.—Frankie Porto, of Beaver Falls, Pa., outpointed Pete Zivic of Pittsburgh, 10 rounds.

**Boxing Show at Monticello.**  
Action galore is promised the fans who attend the opening boxing show of the Monticello Exhibition Club on the night of Saturday, May 31. In the main event of ten rounds, Sammy Marino, sensational New York bantamweight, will exchange blows with Eddie Leonard, crack 113 pounder of Brooklyn. The semi-final of eight rounds will bring together Murray Elkins, former amateur junior lightweight champion of New York state, and Hugo Sarna. There will also be preliminaries.

**Cigar Makers Were Defeated**

The Kingston Gas & Electric Company ball tossers defeated Van Slyke & Horton in an Industrial League game at Athletic Field on Monday by a score of 3 to 0. The cigar makers lost the game in the first frame when the gas eaters put three runs over the platter, the only scores made during the game.

Three base hits—Slover, North and Lawrence. Two base hits, Deitz, Townsend, North. Home run, Carter. Bases on balls: Off Baker, 2; North, 3. Wild pitch, Deitz. Hit by pitcher: By Baker, 1 (Barley). Struck out by Baker, 8; North, 7. Double play, Jordan, Townsend. Time of game 2 hours, 40 minutes. Umpire, McKeon.

**TAGGING ALL THE BASES—IN THE MAJOR LEAGUES**

The Yankees indulged in long distance hitting to beat the Tigers in the final game, 8 to 2. Ruth knocked out his 11th homer, Ernie Johnson sent out two four sackers.

The Red Sox made it three straight over the Indians, winning 10 to 9. Thirty-four players took part in the contest.

Ed Rimmell not only pitched the Athletics to a 2 to 1 victory over the Browns, but he did it in the season's record time of one hour and 12 minutes.

The Reds not only lost to the Cardinals, 4 to 3, but lost the services of Fonseca, their second baseman, who suffered a broken left arm while sliding to second in the seventh.

The Senators swatted the ball hard in winning from the White Sox, 8 to 2.

**ALL STARS TO START SEASON ON FRIDAY.**

Manager McCordie of the All Stars has booked the local club to play in Maybrook on Decoration Day and Millerton on Sunday, the fastest semi-pro clubs in this state. On Sunday they will travel to Millerton and will clash with the fast club of that place. On Sunday, June 8, the All Star team will go to Canaan, Conn., where they will try to down the club representing that town. All of the local boys are in excellent form and are on the road to win. Stout will pitch Friday with Chester behind the plate. Black, Cragin or Connolly will be started Sunday with Chester on the receiving end. The rest of the lineup will be announced later.

**PRESBYTERIANS DROP A GAME TO LUTHERANS**

The ball team of the Trinity Lutheran Church defeated the Rondout Presbyterian Church in a game in the Sunday School League at the Athletic Field Monday afternoon by a score of 5 to 2.

The score by innings:  
Presbyterians 0 1 0 1 0—2  
Lutherans 1 0 0 4 x—5  
McCaff and Finley; Marks, Wolfersheim and Kruger.

Cincinnati at St. Louis, cloudy, two games.

**"Catsup" From the East**

Catsup is a word derived from the name of an East Indian pickle. The term was first applied to the boiled spiced juice from salted mushrooms, but is now freely used for various sauces which consist of the pulp, boiled, strained and seasoned—of tomatoes, green walnuts, etc.

**Snowdrop Nutrition**

The "chaste harbingers of spring," the English snowdrop, appears to owe its introduction into England to the Benedictine monks, who discovered that the roots of the snowdrop possessed properties nutritious enough to merit their cultivation near their monastery.

Dancing, Kingston Point Casino, Decoration Day, afternoon and evening.—Advertisement.
